TOM HALE TENNESSEE CHAMPION

Tournament This Year Repetition of 1914, Mt. Pleasant Amateur Winning With 99, John Noel Being Second, W. Henderson Leading Amateur, H. Clark Top Professional.

BY JOHN D. CUMMINS

Nashville, Tenn., June 18.—The Tennessee State shoot, on June 3, 4 and 5, was marked by some brilliant shooting. The State amateur championship race embraced the last 100 targets on the program of June 5, and Tom Hale, of Mt. Pleasant, Tenn., who won the State amateur championship in 1914, again won the coveted honor for 1915, with a score of 99 out of 100. John Noel, of Nashville, Tenn., was runner-up in the State championship event, breaking 98 out of the 100. Walter Williams, of Nashville, one of the youngest members of our club, took third place with 97, while Fred Worsham, of Knoxville, Tenn., took fourth place with 96. There were five who tied with 95, and the shoot-off for position resulted in placing J. B. Duncan, of Lucy, Tenn., in fifth place, P. M. Shelton, of Bristol, in sixth place; Howard Van Gilder, of Knoxville, in seventh place. Captain Andy Meaders, of Nashville, who also broke 95 in this event, was called from the shooting grounds before

THE SHOOT-OFF OCCURRED,

and therefore, did not participate in the contest for position. The State challenge trophy event which embraced the last 100 targets on the program Friday, June 4, and to which only Tennessee amateurs were eligible, was won by John Noel with a score of 98 out of 100. The State challenge trophy was put in open competition for the first time at the State shoot in 1914, and was won by John Noel, which now makes two wins to his credit, and if Noel again wins the trophy at an annual shoot, it will then become his personal property, as three wins by any one contestant gives permanent ownership. Woolfolk Henderson, of Lexington, Ky., was high average amateur in the three days, which included practice day, with a score of 495x500, his total on regular targets being 396 out of 400. John Noel was second high average amateur with a score of 493x500. It is rather a coincidence that Tom Hale won the

STATE AMATEUR CHAMPIONSHIP

in 1914 and again won it in 1915. John Noel won State challenge trophy in 1914 and again in 1915. Woolfolk Henderson was high average amateur in 1914 and was again high average amateur in 1915. John Noel was second high average amateur in 1914 and was in the same position in 1915. Of the professionals, Homer Clark was high average with 491x500, while H. D. Gibbs and C. E. Goodrich tied for second place with 486x500. LeCompte carried off the honor for long runs with 226 straight to his credit. Homer Clark had second long run with 205, while John Noel was third with 189, and Woolfolk Henderson fourth with 186. John D. Cummins, Jr., of Nashville, Tenn., who is only 14 years old, averaged 89 per cent. on 500 targets, and in the first event on Saturday, broke 94 out of 100.

Notes of Club Trap Shooting Events

OWING to the great pressure of big trap shooting events in the past few weeks, especially the many State tournaments, we have been unable to publish many of the regular club shooting events in that time. We have therefore reduced those which were crowded out to note form, so that the winners would have the proper credit in the records. The greatest pressure will be over with next week's issue, and then the regular club shooting scores will make their weekly appearance in "Sporting Life." The notes follow:
